Jubet M. Padilla

Systems Engineer — software that stays running

kabankalan city, philippines · UTC+8 · jubetpadilla@gmail.com · linkedin

Seven years building and running production web systems, databases, Google Workspace and Microsoft 365 rollouts, and automation — for government, education, healthcare, and remote US clients.

EXPERIENCE

Senior Web Systems Developer

2024 - 2026

Global Web Solutions — remote

- Built and shipped full-stack web platforms and database-backed applications for enterprise clients.
- Used agentic AI tools (Devin, Cursor, Windsurf, Claude Code) to cut build and deploy time across projects.
- Wrote responsive frontends, tuned slow database queries, and fixed server-side performance issues.

ICT Specialist — Administrative Assistant II

2024 - 2025

City Government of Kabankalan

- Ran Google Workspace and Microsoft 365 for municipal departments: accounts, access, and identity.

- Kept municipal digital systems online under national data-privacy and cybersecurity requirements.
- Handled Tier 2/3 diagnostics, database checks, and hardware rollouts across government networks.

Technical Operations Lead

2024 - 2026

Verity Lab

- Ran technical operations for a digital fabrication studio: CAD modeling, 3D printing, and digital assets.
- Owned CAD design, mesh slicing, and the software pipelines behind high-precision part production.

Digital Solutions Developer & Frontend Engineer

2022 - 2024

US Technology Partners — remote

- Built web platforms and interfaces for US-based companies (Stratedia, Mr. and Mrs. Leads).
- Improved database indexing, frontend speed, and cross-browser support under real traffic.

Multimedia Specialist & College Instructor

2019 - 2023

Fellowship Baptist College

- Led the shift to remote learning: campus-wide Google Workspace, virtual classrooms, and faculty training.
- Handled compliance and facility readiness, earning the Government Safety Seal for campus reopening.
- Taught web development, computer graphics, and IT while running campus multimedia and photography.

EXPERTISE

Web systems

Full-stack engineering · frontend architecture · relational databases · enterprise UI · rapid prototyping

AI-assisted engineering

Agentic workflows (Devin, Cursor, Windsurf, Claude Code) · prompt engineering · AI-assisted system development

Cloud & admin

Google Workspace · Microsoft 365 · identity & access governance · digital operations

Leadership

Curriculum engineering · IT instruction · systems project management

EDUCATION

BS Information Technology

Fellowship Baptist College — graduated 2019

`outstanding student trainee · best capstone project`

CERTIFICATIONS & LEADERSHIP

Google UX Design — Google

Creative Educator L1 & L2 — Adobe

President — Photography Club of Kabankalan, 2019–2024
